

# COMPSTAT360 — COMMUNITY MAP

Police departments can use this Community Map in the early stages of CompStat360 implementation to identify potential community partners. Organized by type and focus, the table includes examples of the wide variety of stakeholders that agencies might consider engaging both to collaboratively select a priority problem and to form a Problem-Solving Team that includes community partners as members. Depending on your community's size, it may be helpful to Google the terms listed in each section to find local partners for your CompStat360 work. For the "Community-based Advisory Board" row, please fill in members as appropriate in the columns representing their areas of expertise. Use the worksheet on the next page to document your area's potential partners.
